

# OAKLEY SI BALLISTIC ALPHA ECOSYSTEM

AN SI EXCLUSIVE MODEL

## PRODUCT DESCRIPTION

ALPHA is an ecosystem - modular and scalable to meet the unique demands of those who face the unknown. Whether a soldier is configuring a weapon or load carriage, versatility is key. That's what inspired the ALPHA concept, a design that offers multiple configurations based on the mission and methods of infiltration. ALPHA is a three-part system composed of a frame, gasket and goggle with a single lens working across all platforms.

Interchangeable Lens - Replacement lens is compatible with the Halo Goggle

Stem Technology - Thin stem technology enables compatibility with over-ear hearing protection/comms

Fog Free - Flush-mount surface creates a Venturi effect to maximize airflow and prevent fog build up. Anti-fog capability enhanced with three-point retention architecture and anti-fog coating on inside of lens.

Hybrid Lens - Hybrid Lens shape to maximize comfort and field of view

AN SI EXCLUSIVE MODEL

## KEY FEATURES

### LENS

- All lenses are made of Plutonite®, Oakley's high purity optical-grade polycarbonate
- All lenses feature Oakley High Definition Optics (HDO®) with Polaric Ellipsoid™ geometry
- All lenses feature an advanced anti-fog coating
- UV protection of Plutonite lens material that filters out all UVA / UVB & harmful blue light up to 400NM wavelength

### SI BALLISTIC M FRAME® ALPHA™

- Durability and all-day comfort, stress-resistant O Matter™ frame material
- Ultra lightweight design (1.05-ounce total weight)
- Thin stem technology enables compatibility with over-ear hearing protection and communication systems
- System features quick, tool-free lens interchange
- Full compatibility with helmet-mounted night vision devices
- Full compatibility with MICH, ACH, CVC, PASGT, Ops-Core®, Team Wendy® and Crye™ Helmets

### SI BALLISTIC HALO™ GOGGLE

- Low profile design compatible with all helmet-mounted night vision devices and O2 mask systems
- Fleece-lined, moisture wicking, face foam for ideal comfort and performance
- Low profile, flame-resistant, quick release Velcro strap system with anti-slip tack strips
- System features quick, tool-free, lens change system
- Full compatibility with MICH, ACH, CVC, PASGT, Ops-Core®, Team Wendy® and Crye™ Helmets

### BALLISTIC & OPTICAL STANDARDS

- Meets or exceeds high mass and high velocity impact requirements per ANSI Z87.1-2003/2010
- Meets or exceeds ballistic fragmentation impact standards per MIL PRF-32432A

### ACCESSORIES

- Oakley Rx carrier system available
- Replacement lenses available
- Laser lens configurations available
